THERE WILL BE WAR!

So Says Congressman O'Neill and
a Prominent Army Officer,
WITH EXCEPTIONAL OPPORTUNITIES.

But the Facts, So Far as They
are Known to the Correspondent, Do
Not Seem to Warrant Such
a Conclusion.

WASHINGTON, Jan. 14.—Representative O'Neill, of Missouri, is reported to have said yesterday:
"You can say that there will be war. Don't put any ifs or ands to it—make the statement broad and unqualified. A prominent officer of the army, who received a letter from one of the naval force at Valparaiso Monday, said: 'In six weeks a detachment of the army will be marching into Chile. I thoroughly believe what I say.'"
Mr. O'Neill's statement is regarded as evidence of a change of feeling on the part of some of the Democrats in the house, who may feel that they can not afford to let it be known that President Harrison is in favor of maintaining an advanced position upon the question of asserting and defending a courageous American position, and that the majority of the house of representatives are not inclined to back him up in it.

The collect quoted has exceptional opportunities for knowing just what is the sentiment of the people of Chile as manifested to the officers of the United States vessels in the harbor of Valparaiso, and is undoubtedly honest in their expression he said.
And yet it may be said that there has nothing developed in the situation of affairs, as viewed from an unofficial standpoint, which can be taken to indicate another material change, or which warrants the gentlemen in making the assertions quoted. It can be authoritatively stated that no dispatch has been sent to Minister Egan conveying the ultimatum of the United States of indicating any impatience on the part of this government with the attitude of Chile. It is not time for the first, unless the United States is ready to precipitate a conflict while negotiations are pending, and certainly no such intention has been declared by any official of this government, whatever may have been the expressions of opinion upon the subject. As to the second, it is not the practice in diplomatic correspondence to betray any petulances or impatience; it would not be dignified nor proper, and the gentlemen conducting the negotiations for the United States are not tyros in the art of diplomacy by any means.

President Harrison is devoting much of his time to a careful study of the correspondence that has been furnished him from the state department, and which is kept up closely day by day. He is going through it as a trained lawyer would in preparing a brief for presentation to the court. It is said that he has analyzed it so far as to be able to show conclusively the insubstantiality of the claims of the Chilean government in its dealing with the United States, and the presence of an intense anti-American feeling, which has already been made public, manifest throughout all of it on the part of Chile.

The president desired to have the case before him as complete as possible, so it was that Judge Advocate-General Cheney was sent to San Francisco to conduct the examination of the Baltimore sailors upon the riot and assault upon them. The testimony thus adduced, it is said with the judge advocate general's findings based thereon, will form an appendix to the correspondence when it is sent to congress. If this be the case, the budget will not reach congress before next week, as Col. Cheney will not reach Washington before then and make his report. A synopsis of the evidence has been telegraphed the president day by day during the inquiry.

It has not been decided by the president, it is said, whether his comments on the correspondence will take the form of a message to congress or of a dispatch to Minister Egan. In either case, his friends expect that he will make a dignified but forceful presentation of the position of this government, which will be accepted by the country. Should it be sent to Minister Egan for presentation to the Chilean government it may be considered by the officials of that country in the light of an ultimatum.

Senator Montt and Secretary Blaine have had no conference for two or three days. A report credited to a close friend of Mr. Blaine, said that the secretary has become convinced that the Chilean government does not intend to apologize. An effort was made to see the secretary, but he was engaged, and sent word to the reporter that he had nothing to say.
There has been a little light thrown on the question of the citizenship of Patrick Shields, the American sailor who was so terribly beaten in Valparaiso, whose testimony was contained in these dispatches Monday night, and whose citizenship was in doubt. A man called at the state department yesterday, and asked for the address of Shields. He said that from the description in the newspapers and the circumstances of his coming to America, this man is his own cousin, and if this suggestion is correct, he is an American citizen by virtue of his father's naturalization. His cousin, Patrick Shields, he went on, has in his possession his father's papers. There was no discrepancy in the description, and the inference is that the men are identical.

Thought Better of It.
WASHINGTON, Jan. 14.—It was learned last night when the excitement over the Garza campaign was at its height, the Mexican minister formerly suggested to Secretary Blaine that it

THE FIRE AT LEEDS.

A Singular and Unusually Destructive Conflagration.
FIREMEN AND WATER ALIKE USELESS.

Owing to the Inflammable Nature of the Materials Burned—A Graphic Description of the Scene—An Awful Death.

LONDON, Jan. 14.—The great fire at Leeds yesterday is said by those who have been to the scene to be a most remarkable spectacle. The railway station beneath which the fire started was jointly owned by the Midland, the North Eastern, and the Great Northern, and was built upon stupendous arches adjoining the canalized River Aire. The spaces in the arches were rented for warehouses. In one of these warehouses Watson's stores yesterday's fire originated. The stores contained hundreds of tons of the most inflammable commodities—sugar, rosin, tallow, oil, benzene, tar, etc. Water was powerless to restrain the flames formed by these materials, and the efforts of the firemen to control the conflagration were futile.
Within two hours the fire had forced its way through the roof of the massive arches, and attacked the railway station, which covered ten acres of ground. The building soon yielded to the flames, and the fire spread to adjacent property. The railway tracks for a considerable distance were ruined, and several bridges over the Aire and across the arches were also destroyed. The firemen, with their ladders, and some of them, striking bargains in the stream, sank the latter and their contents, thus losing the loss caused by this singular disaster.
Meanwhile the masses of boiling rosin, tallow and tar poured into the river until it resembled a vast seething cauldron.
When the station building fell in, and Mr. Schofield was buried in the fiery mass, his brother, who witnessed the awful scene, fainted.

A BROTHER'S CRIME

Leads to the Ruin and Death of a Brilliant Mind.

CHICAGO, Jan. 14.—A coroner's inquest was held yesterday upon the remains of Ulrick A. Burke, who died from hunger and exposure Monday evening while being taken to the Harrison-street police station. Burke was a brother of Thomas H. Burke, the under secretary for Ireland, by whom Lord Curzon was assassinated in Phoenix park, Dublin, on the evening of May 6, 1882.

This heinous act of conspirators caused a tremendous sensation, as did also the conviction of the assassins which followed, and the pursuit and murder of Informer Carey by O'Donnell, for which the latter was executed. The unfortunate man who died Monday night was born of aristocratic Irish parents at St. Omer, department of Pas-de-Calais, France. He was educated at the University of Lige, Belgium. During the siege of Paris he was one of the army physicians, and did much to relieve the wounded within the walls of the city. Shortly thereafter he came to Chicago, remained one year and then removed to La Fayette, Ind. There he built up a lucrative practice, but the execution of his brother and the death of his wife led to drink and he became a slave to liquor.

THE DYING PRINCE.

Cardinal Manning's Physicists Hold Out Hope of His Recovery.

LONDON, Jan. 14.—The physicians of Cardinal Manning announced last evening that they could no longer hold out any hope for the recovery of their patient. His condition is now so critical, complicated with congestion of the lungs. The cardinal was able, yesterday afternoon, to make formal profession of his faith, the impressive ceremony being observed in the presence of the full robed canons of the diocese, who were ranged around the bed. Afterwards the venerable prelate feebly uttered his benediction upon the canons. Both these ceremonies indicate the belief of all concerned that death is near, and telegrams were sent to the pope, Cardinal Gibbons and others high in the church, apprising them of the expected demise of the sufferer.
The dying cardinal lies in a small bedroom at the top of the archbishop's house, Waterloo place. His body is occupied as his sleeping apartment since 1885.

WAR TO THE KNEE.

Chicago Malting and Brewing Companies Cutting Each Others' Throats.

CHICAGO, Jan. 14.—The big English brewery syndicate of Chicago and Milwaukee, known as the Chicago Malting and Brewing Co. and the Chicago and Milwaukee Brewing Co., have begun a war of extermination on the smaller concerns that have sprung up since the formation of the two great trusts, and as a result beer is now selling at a low price. The war will be a bitter one, as both sides are willing to lose money now in hope of reaping a rich harvest during the winter's sale. The friends of both the syndicates have fallen nearly 50 per cent. since they were organized.

All London Thronging the Bull-
tomb Boards
FOR LATE NEWS FROM SANDRINGHAM.

Where the Heir Presumptive to En-
gland's Throne Lies Baiting with
the Grim Monster Death—The
Reports Not Encouraging.

LONDON, Jan. 13.—An intense crowd of people surrounded Marlborough house, waiting for news from the bedside of the Duke of Clarence and Avondale, and anxiously expecting the posting of the next bulletin from Sandringham. The crowd had gathered to read the morning bulletin; but when the facts set forth in it had become known, they could not be persuaded to retire, and it was openly admitted that the bulletin was so worded as to leave no doubt that the worst was to be feared very soon. Hundreds of people would not be satisfied with reading the bulletin, and insisted upon having the news confirmed by personal inquiry at the doors of Marlborough house. Hundreds of others seem to have spent the day in driving about from one swell club to another, anxiously asking for the latest information received from Sandringham. In all places where news tickers are to be found, crowds of people have gathered around, and there they remain chattering over the news and apparently resolved to stay about as long as new distributing instruments until the worst or the best is made known.
Speculators in stocks were in a state of feverish uncertainty as to what course to adopt under the circumstances. Opinions differ widely as to the influence the prince's death would have upon the market. The usual alarming report in such cases became current on the stock exchange during the morning. It was suddenly whispered around that the prince was dead, and it was noticed that this information seemed to cause little or no surprise. The report of the prince's death was again circulated at 1.50 p. m., and this time it caused a decided suspension of business, for it was looked upon as being a confirmation of the report which had previously reached the stock exchange.
From the exchange the news spread with wonderful rapidity throughout the city and found its way to the West End clubs. The alleged news caused another rush of people to Marlborough house, where many people were glad to drive back to the clubs with the information that the prince was still alive.
As this message is sent, the crowds about Marlborough house are increasing in density, and a strong force of police has been sent to the spot.

ARRANGED IN BOW STREET.

A Dangerous Gang of Anarchists Unearthed.

LONDON, Jan. 14.—Dooganovitch, the well-known anarchist, who was arrested in some yesterday morning, was subsequently charged at the Bow-street police court. His real name is said to be John Bartoli. He is described as an Italian and as a shoemaker by trade. The police look upon the arrest of Dooganovitch as being likely to furnish an interesting connecting link in the chain of evidence forged around the prisoners arrested upon the charge of being concerned with the anarchists club of Walsall, in the manufacture of explosive bombs and with other conspiracies tending to disturb the peace of the kingdom. The socialist club at Walsall, according to the police, was beyond doubt closely allied with similar organizations on the continent and in the United States. Dooganovitch denies all knowledge of Walsall or of its socialist club, but the police, searching his lodgings, found there a number of important papers and authentic prints. The documents mentioned, it is announced, are likely to lead to further arrests in the same district. The situation may be briefly summed up in the statement that the British police are, beyond a doubt, to have unearthed a dangerous gang of anarchists who, connected with European associations holding similar views, have been for a long time past engaged in the manufacture of explosive bombs and in the spread of anarchist literature.

THE LITTLE CHILDREN.

Half of the human family die before the age of five years. What a frightful and heart-breaking fact this is. What a record of sleepless nights and agonizing days, of mourning parents and weeping relatives. Many, probably the vast majority of them, die from throat and lung troubles. Croup alone sweeps off thousands every year, while diphtheria and other throat maladies fairly populate the cemeteries. All of these diseases can be easily cured. Croup especially can be wholly overcome by the use of Reid's German Cough and Kidney Cure. No matter how severe the attack it will yield to this treatment. The main advantage that Reid's German Cough and Kidney Cure possesses is, that parents and nurses have no fear of its use. They do not need to hesitate and wonder if when the disease be overcome they will have to fight the evil effects of an opiate. There is nothing of this sort in Reid's German Cough and Kidney Cure. The medicine can be given freely and when the disease is conquered there are no after effects to distress the patient. For sale by all dealers.

A MYSTERY EXPLAINED.

The papers contain frequent notices of rich, pretty, and educated girls eloping with negroes, tramps and coachmen. The well-known specialist, Dr. Franklin Miles, says all such girls are more or less hysterical, nervous, very irritable, unbalanced, usually subject to headache, neuralgia, sleeplessness, immoderate crying or laughing. There is a weak nervous system for which there is no remedy equal to Restorative Nervine. Trial bottles and a fine book containing many marvelous cures free at W. G. Armstrong, who also sells and guarantees Dr. Miles' celebrated New Heart Cure, the finest of heart tonics. Cures heartburn, indigestion, etc.

Bradley Bros.

FERRISS & LAPHAM, 148 East Main Street.

COME AND BUY NOW.

This is an opportunity of a lifetime. We have put these shoes down to a figure such as we could not buy them for if we had to purchase them in the way that ordinary retailers do. We have put them down to a figure which no retailer can match. We have determined to close out our heavy stock and are going to do it if prices can do any such thing. We think that the "public" is not a fool" and that the public will buy when such tempting figures are offered. The dull season is coming on, the weather has been against us all the time and this has affected us more than it does the ordinary retailer, because our wholesale house, with its ramifications all over the west, has heard from it. We must realize, we have got to sell. We need money, hence marked down everything in our store to figures which will make the goods go whether you are at present ready in need or not. It don't cost you any- thing to investigate. Come and see us. If you don't think we mean to sell, regardless of the season we will soon convince you of it.

As to LADIES' SHOES, we might remark that the cuts which we make in this line of goods are quite as great as in our Men's Department.

We will sell you the celebrated Ladies' Shoe, manufactured by C. P. Ford & Co., of Rochester, N. Y. This is a shoe we have sold for the past fifteen years. It is a Dongola Kid, flexible sole, is made in opera lasts, opera with low heel and common sense lasts. The widths are A to E and the sizes 2 1/2 to 8. Most of our customers know this shoe. We sold them very close when we sold them at \$3.00. Now we cut them to \$2.29.

\$3.50 for \$1.98

We have another lot of Men's Calf Shoes with smooth inner sole which we will sell at \$1.98 and we know that other dealers get \$1.50 for them. They wholesale to most all the close buyers in the country at \$2.25 and are a rare bargain at our price.

\$3.00 for \$1.60

Men's Calf shoes ordinarily sold at \$3.00 in Conn- gress and Lace, tip and plain toe, we are going to sell them out now for \$1.60 per pair. These are smooth calf shoes, and the greater part of them whole- sale at from \$2.00 to \$2.25 per pair.

\$4.50 for \$3.25

In our Ladies' Cloth Top, patent leather tip, Dongola, hand- turned shoes, which every dealer will ask you \$4.50 for, we sell it now for \$3.25 and it is one of the finest bargains in a shoe for ladies who want excellent goods. These shoes are in lace and button and are in all widths and sizes.

\$4.00 for \$3.00

Our \$4.00 hand-turned shoe for ladies was always worth the money when we sold it at that figure and other dealers never did any better, it is well. We have these shoes in opera, opera and low heel and common sense lasts, and all widths from A to E and we are selling them below the regular wholesale figure when we offer them to you at \$3.00. Better buy a pair.

\$3.50 to \$4.00 for \$2.29.

WE PROPOSE TO SELL SHOES. The demands of the trade have been for such for a varied stock to select from that we have been virtually compelled to have a larger stock on hand than at any time during our previous business history in Decatur. We have accumulated a large stock which we must sell. The question of profit must be forgotten in the one idea of selling. We are going to sell it prices will do it. Accordingly we have arranged for a

WAR TO THE KNIFE!

Which we inaugurated January 1st, and which we will continue to March 1, or longer if necessary to clean out our present stock of goods and get ready for the spring. Now, we never advertise anything which we don't back up with the stern logic of figures. For instance here are a few sample prices.

Card Company.—(d&w)

The prohibition club will hold a meet-

ing at the W. C. T. U. rooms to night.

A musical and literary programme will

be given. All are invited to attend and

listen especially.

Literary notes with extended view,

every good thing from China to Peru,

and he will not find anything of such

REFUSE TO ACCEPT.
The Congregationalists Do Not
Want to Part with Rev.
W. C. Miller.
The called meeting of the members of
the First Congregational church was
held last night to consider the resigna-
tion of the pastor, Rev. W. C. Miller,
which was tendered by the clergyman
last Sunday. The attendance was large.
Rev. Miller was present, and stated
that his reason for desiring to return
from the pastorate was due to poor health,
which has continued for several months.
He had held on and had occupied the pulpit
when he had to hold to the desk to keep
his feet, and while preaching dizziness
had blinded him temporarily until he
could not distinguish people in the con-
gregation. He had worked hard since
coming to Decatur nearly three years
ago, and at times he had felt that
he was unable to continue longer in
the work. He believed that his
weakened physical state demanded a rest
and he would turn the work over to a
successor. Rev. Miller called T. L. Evans
to the chair, and then left the church,
in order that the membership might act on
the resignation.

GAMBLING IN BLOOMINGTON.

After Vigorous Exposure the Ma-

yor Orders the Closing of All

Houses.

Bloomington, Ill., Jan. 18.—The peo-

ple of this city are excited over a recent

exposure by pulp and press of the gam-

bling houses in this city. On Sunday night

last the Rev. W. B. Riley, pastor of the

First Baptist church, presided upon the

subject. He said that on the night be-
fore he had, in company with a reporter,
visited six gambling dens and saw nearly
200 young men therein playing various
games. The following morning the Pan-

graph published a lengthy synopsis of
Mr. Riley's sermon, and supplemented it
with a strong editorial, saying that there
were nearly a dozen gambling houses
running wide open and operated day and
night and Sunday in this city, and de-
manded that they be permanently closed.

No attention was paid by the authori-

ties, and this morning the Panograph

demanded of the mayor that the gam-

bling houses be closed. To-day Mayor

Foster issued an order that all places

where gambling is carried on must be

closed, and to-night the houses are shut

and dark and the gamblers are leaving

town by the scores. Mayor Foster was

known for his liberal views when elected,

and he says that he has gambling was

carried on here, but he had no idea that

it was to the extent that it has been, and

he says there shall be no more of it.

Mackey's Latest Freak.

A report comes from the south that on

February 1st there will be a clean sweep

of employees and officials of the great

Evansville route, controlled by D. J.

Mackey, and composed of the St. Louis

and Louisville Air Lines, the Chicago and

Eastern Illinois, the Evansville and Ter-

re Haute and the Peoria, Decatur and Chi-

cago. The fast train connecting Chicago

with the south is to be taken off, and the

southern traffic departments, freight and

passenger, abolished. This freak of

Mackey's will throw hundreds of men out

of employment and cause the entire

Evansville route to be killed by the rail-

roads of the south. It is given out by a

high official of the road that the whole-

sale discharge of the men was the result

of an unpleasant tilt between Traffic

Manager G. J. Grammer and President

Mackey. Grammer had decided to abol-

ish the whole southern department of the

road, agents and agencies, and announced

this decision to Mackey. The president,

who has never been on good terms with

Grammer, at once informed him that if

the southern men had to go, the North-

ern agents and employees should go

also. As a result of this unpleasantness

the agents will step out February 1st and

new men take their places.

The Charming "Little Tycoon."

The merry come opera, "The Little

Tycoon," which will be seen at the Opera

house Tuesday, January 19, can be justly

styled the magnetic drama opera. People

go to see it again and again, and the

more they go the better they like it. Its

record surpasses anything in the opera

house. Philadelphia has seen its success

and for nearly three years, and had it not

been for the destruction of the fire of the
